

Academic Liaison Librarians - Mission Statement

Our Mission

Academic Liaison Librarians are the eyes, ears and voice of the Library.

We champion and represent the Faculties' voices in shaping library services, collections and spaces to deliver an excellent student experience.

We leverage our expertise innovatively and inclusively, partnering with academic colleagues and students to put learning and teaching at the heart of everything we do.

By forging and fostering relationships, we are able to anticipate, understand and meet the needs of our diverse community.

Our Approach

- Connecting staff and students to quality resources to support learning and teaching
- Offering regular development opportunities to ensure academic staff are able to engage fully with library systems and services for the benefit of the university community
- Collaborating with Faculties to embed the learning and teaching of information and digital skills with a comprehensive and flexible programme of study skills and resources
- Maintaining strong relationships with academic colleagues, enabling two way advocacy between the Faculty and Library
