

Viewing and refining results

This guide describes the features of the Discover search results list, including limiters, facets, sorting options and the share menu options.

Search results can include citations, full text articles, and abstracts, and can include links to full text.

The screenshot shows the University of Sunderland Discover search results page for the query 'deforestation'. The page is divided into three main columns:

- Left Column (Refine Results):** Contains options to refine the search, including expanders, limiters, and source types. The 'Publication Date' filter is set to 2018, showing 1409 results.
- Middle Column (Search Results):** Displays a list of search results. The first result is 'Deforestation: social dynamics in watersheds and mountain ecosystems / edited by J. Ives and D. C. Pitt'. Below the list is a table showing the location and status of the books.
- Right Column (Support for your Subject):** Lists various subject areas supported by the library, such as Arts & Design, Business & Management, Computing, Education, Engineering, English, History, Politics and Religion, Languages (including EAP, BSL and TESOL), Law, Media, Performing Arts, Pharmacy, Health and Wellbeing, Psychology, Social Sciences, Sport & Exercise, and Tourism, Hospitality, & Events.

Location	Call No.	Status
Murray Library	634.959102	One available

The results list has three columns:

- The left hand column allows you to refine the search
- The middle column features the results display
- The right hand column displays related information, such as subject support.

The columns either side of the main search panel can be hidden or displayed by clicking the arrows at the top of the respective column.
